

ZAXIS-6 series

HITACHI

Reliable solutions

# ZAXIS170W

## HYDRAULIC EXCAVATOR

Model code : ZX170W-6

Engine rated power : 128.4 kW (ISO14396)

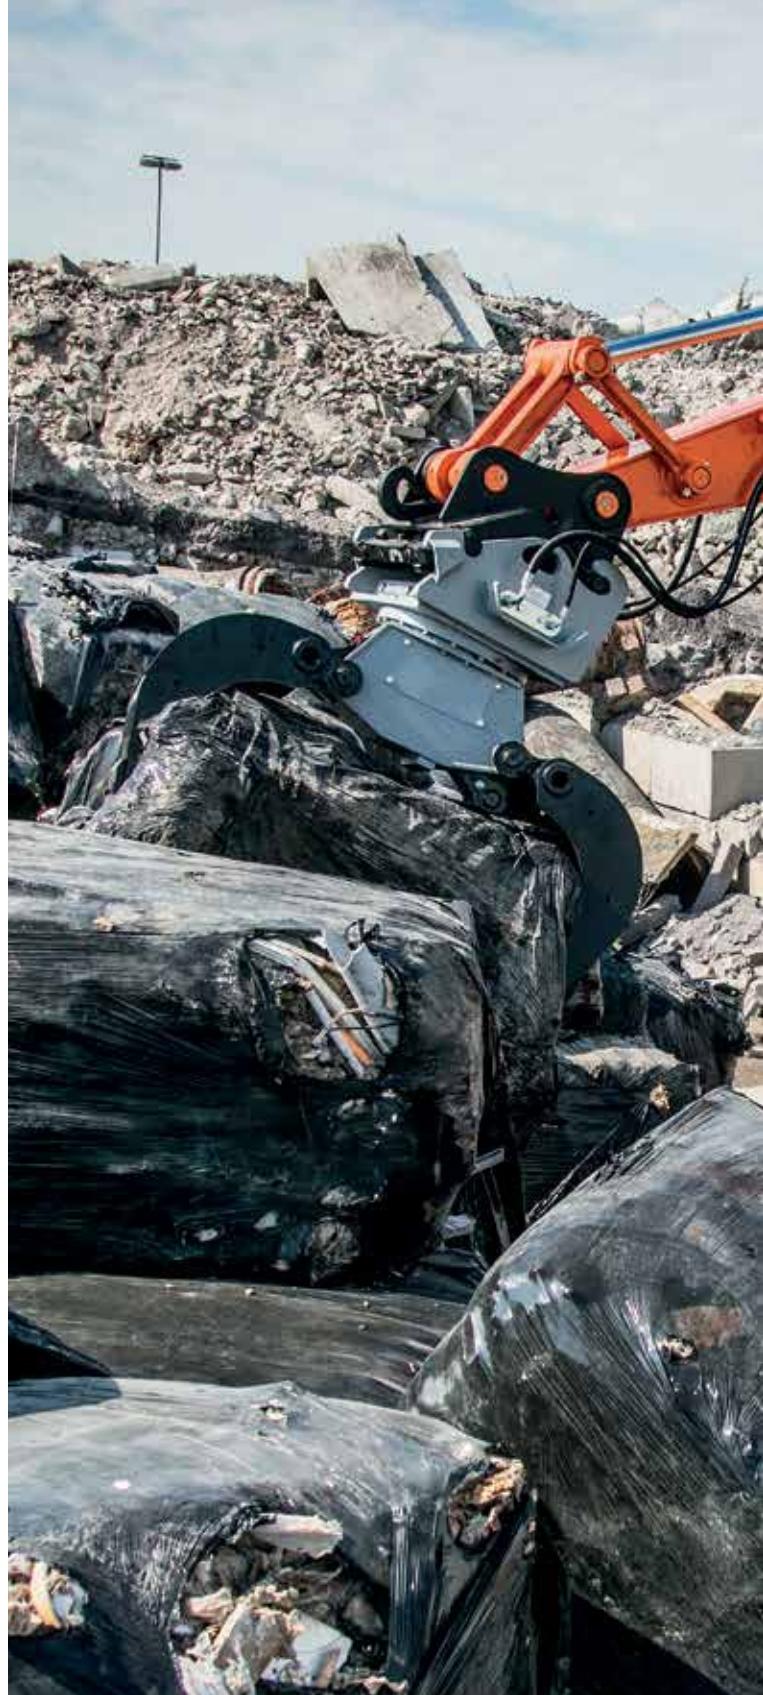

Operating weight : 17 300 – 19 100 kg

Bucket ISO heaped : 0.52 – 0.82 m<sup>3</sup>

# ZX170W-6. NO COMPROMISE

The ZX170W-6 is easy to operate and manoeuvre around a variety of job sites, and exceptionally versatile for different applications. It incorporates unique industry-leading Hitachi technology, but without compromising on its user-friendly appeal.

Hitachi wheeled excavators share the same high-quality engineering, reliability and durability as its crawler models. With excellent stability, powerful travel and swing forces, and impressive lifting capacity, the ZX170W-6 is the ultimate universal working machine.

12. QUALITY ASSURED

14. PIONEERING TECHNOLOGY

# DEMAND PERFECTION

Following feedback from European customers, Hitachi engineers in Japan have developed the ZX170W-6 to perfection with more than 100 design updates.

Every single improvement contributes to Hitachi's overall aim of lowering the total cost of ownership. Collectively, they help to provide greater durability, better performance and increased operational efficiency.

## High quality

Only the best design elements and materials.

## Incredible versatility

Tilt and rotary tilt modes complete the attachment support system.

## Lifetime reliability

Reliable components help to prevent oil leaks.

## Ultimate durability

Solid and reliable undercarriage, modular in design.

**Optimum performance**

Remote monitoring with Global e-Service online application.

**User-friendly**

Easily accessible cab with step and wide entry.

**Low emissions**

SCR system reduces exhaust gas emissions.

**Excellent efficiency**

HIOS IV system reduces total hydraulic loss.

**Easy maintenance**

Convenient and wide-opening engine cover.

**Low fuel consumption**

10% fuel saving in PWR mode (9% in ECO mode).

*“Our maintenance costs are lower and there is minimal downtime”*

Matthias Schindler, Director, Joh. Sahler GmbH

## PROVEN RELIABILITY

Hitachi is renowned for manufacturing reliable construction machinery. Its Zaxis-6 wheeled excavator range has been designed to achieve optimum levels of performance and availability, and operate efficiently all day, every day, with minimal downtime.

### Easy maintenance

The lightweight split-type engine hood opens widely for convenience. It provides easy access to the engine compartment and after-treatment device for routine maintenance.

### User-friendly fuel filter

The main fuel filter screws into place on the ZX170W-6. This makes it easier to replace and ensures that dust is prevented from entering the fuel circuit during routine maintenance procedures.

### More efficient cooling

The expansion tank is mounted on top of the engine's cooling system. This revised position means that the air can be completely removed and prevents the engine parts from overheating.

### Durable hydraulic connection

A rubber hose fitted with a flange has been incorporated into the design of the hydraulic return pipes. These enhance the reliability of the system and reduce the risk of oil leaks.

Easy access to the engine compartment.

The main fuel filter is easier to replace.

The expansion tank prevents engine parts from overheating.

High ground clearance reduces damage from obstacles.

Large blade cylinder cover offers greater protection.

**i** Hitachi excavators are tested extensively in job site conditions on Hokkaido, the second largest and northernmost Japanese island, in temperatures ranging from -25°C to 35°C.

# OUTSTANDING DURABILITY

The durability of the ZX170W-6 ensures it can achieve high levels of availability and operates reliably every time, even in challenging conditions. It has been designed with robust features and components, including a durable undercarriage and class-leading exhaust equipment.

## Oil leak prevention

The O-rings on the swing motor are made from fluorine. This highly durable material withstands high oil temperatures and reinforces the parts' reliability to prevent oil leaks.

stronger materials and the revised shape of the piston is designed to achieve cleaner emissions. These features will further enhance the reliability of the engine.

## Enhanced fuel circuit

A high-performance water separator and cold fuel resistance valve are integrated into the pre-filter for added protection against moisture. In addition, a large capacity electric fuel pump supplies an appropriate amount of fuel to the engine for improved performance.

The blade cylinder cover is larger on the ZX170W-6 than the previous model. The outrigger's cylinder cover has also been reinforced. This enhances the reliability of both components.

## Engine protection

The combustion chamber is made from

Reinforced for safer working environment.

## High ground clearance

The transmission unit is installed over the axle to reduce damage caused by hitting unexpected obstacles.

*“It is the perfect solution and does everything that I need it to do”*

Marco Volland, operator, Forst- und Baggerbetrieb Horn

## EXTRAORDINARY VERSATILITY

Versatility is vital for users of wheeled excavators. The ZX170W-6 is easy to operate and manoeuvre, both on- and off-road, and is suitable for various applications with different attachments. Its modular undercarriage design also offers flexibility – outriggers can be positioned at the front or rear, or in combination with a blade, for excellent stability.

### Greater flexibility

The rotary tilt and tilt modes are included within the attachment support system on the ZX170W-6. These and nine other modes can be registered on the monitor for the easy fitment of attachments to increase versatility.

### Power boost

The tried-and-tested power-boost feature has 10% more capacity than the ZX170W-3. This increases the capability of the ZX170W-6 to deliver an enhanced level of excavating performance and lifting power.

### Reduced maintenance

The counterweight has been redesigned and features LEDs in the tail lights. These not only provide better visibility in poor light, but also require less maintenance, which helps to reduce costs.

### Excellent visibility

The cab of the Zaxis-6 wheeled excavator offers excellent visibility. It features a small steering column and a monitor positioned within the right pillar, so not to obscure the operator's view of the job site.

Two tilt modes add to the versatility of the ZX170W-6.

Power boost has 10% more capacity.

LED tail lights are easily maintained.

Superior weather resistance maintains the cab's internal appearance.

Urea is injected into the exhaust gas to reduce emissions.

**i** There are up to 100 points on the Hitachi Design Centre's checklist to measure the quality of its construction machinery, covering performance, reliability and safety.

# QUALITY ASSURED

The high-quality design and engineering of the ZX170W-6 is integral to its performance on the job site and user experience. Before delivery, it is rigorously checked for the highest possible standards of safety and reliability, providing peace of mind for owners and operators.

Ergonomic controls contribute to the ultimate workspace.

## Superior cooling performance

The upper structure benefits from high-quality sealant (around the cooling package) and acoustic materials to eliminate any deterioration caused by heat. These ensure the long-term cooling and low-noise acoustic performance of the ZX170W-6.

## Excellent weather resistance

The in cab console has been sculpted in highly durable AES-grade resin. This ensures superior weather resistance and ultimately prevents the sun's ultraviolet rays from damaging the console.

## Reduced emissions

Hitachi has developed a selective catalytic reduction (SCR) system that injects urea into exhaust gas to reduce nitrogen

oxide from emissions. This cutting-edge technology not only helps the environment, but also complies with EU Stage IV emission regulations.

## Ultimate comfort

A fully adjustable seat, spacious cab, ergonomic controls and advanced music system all contribute to the ultimate working environment.

## Safety at work

The ZX170W-6 has been fitted with a high-spec rollover protective structure-compliant (ROPS) and centre pillar reinforced structure (CRES V) cab. The pressurised cab is designed to protect the operator from the penetration of dust and potential job site risks.

*“Our European customers helped us to develop the Zaxis-6 wheeled excavator”*

Burkhard Janssen, General Manager Product Management & Engineering, Hitachi Construction Machinery (Europe) NV

## PIONEERING TECHNOLOGY

The innovative ZX170W-6 incorporates several technological features designed to enhance efficiency, improve performance and reduce the total cost of ownership. It epitomises Hitachi's advanced technological approach to meet the needs of the European construction industry with its reliable solutions.

### Saving fuel and costs

Hydraulic loss is decreased by HIOS IV technology. It reduces the hydraulic oil returned to the tank due to the cooperative control of the pump and valve. This helps to lower fuel consumption by 10% in PWR mode with the same productivity.

### User-friendly functionality

A large seven-inch multi-function LCD monitor provides a wide range of useful technical information. With multi-lingual support in up to 32 languages, it enables operators to check the machine's status and settings at a glance.

### Remote monitoring

Global e-Service allows owners to monitor their fleets remotely via Owner's Site (24/7 online access) and ConSite (an automatic monthly report). These help to maximise efficiency, minimise downtime and improve overall performance.

### Fewer emissions

The after-treatment device consists of a diesel oxidation catalyst (DOC), urea mixing pipe, SCR system and silencer. This advanced technology helps to reduce emissions and noise levels.

### Advanced audio system

The AM/FM radio is accessible from the monitor and an auxiliary socket – for devices such as MP3 players – is linked to the sound system. This choice of entertainment helps to provide an enjoyable – and productive – working environment.

10% lower fuel consumption in PWR mode with HIOS IV.

The LCD monitor shows the machine's status and settings.

The SCR system reduces emissions and noise levels.

*“The total cost of ownership is of maximum benefit to our company”*

Peter Kögel, Member of the Management Board,  
Kögel Bau GmbH & Co. KG

## REDUCING THE TOTAL COST OF OWNERSHIP

Hitachi has created the Support Chain after-sales programme to ensure optimum efficiency, as well as minimal downtime, reduced running costs and high resale values.

**SUPPORT CHAIN**

### Global e-Service

Hitachi has developed two remote monitoring systems as part of its Global e-Service online application. Owner's Site and ConSite are an integral part of the excavator, which sends operational data daily via GPRS or satellite to [www.globaleservice.com](http://www.globaleservice.com). This allows immediate access to the Owner's Site, and the vital information that is required for support on job sites.

Comparing the ratio of operating and non-operating hours helps to enhance efficiency. Effective management of maintenance programmes helps to

maximise availability. Running costs can also be managed by analysing the fuel consumption. The location and movements of each machine are clearly displayed for essential planning.

An automatic service report – ConSite – sends a monthly email summarising the information from Global e-Service for each machine. This includes: daily working hours and fuel consumption data; statistics on the operating mode ratio, plus a comparison for fuel consumption/efficiency, and CO<sub>2</sub> emissions.

### Technical support

Each Hitachi service technician receives full technical training from HCME in Amsterdam. These sessions provide access to the same technical knowledge available within the Hitachi quality assurance departments and design centres. Technicians combine this global expertise with the local language and culture of the customer to provide the highest level of after-sales support.

### Extended warranty and service contracts

Every new Hitachi Zaxis-6 model is covered by a full manufacturer's warranty. For

extra protection – due to severe working conditions or to minimise equipment repair costs – Hitachi dealers offer a unique extended warranty called HELP (Hitachi Extended Life Program) and comprehensive service contracts. These can help to optimise the performance of each machine, reduce downtime and ensure higher resale values.

## Parts

Hitachi offers a wide range and a high availability of parts dispatched from the

53,000 m<sup>2</sup> HCME European Parts Depot in The Netherlands.

- Hitachi Genuine Parts: allow machines to work for longer, with lower running and maintenance costs.
- Hitachi Select Parts and 2Genuine Parts: especially for older machines, they cost less, are of proven quality and come with the manufacturer's warranty.

- Performance Parts: to cope with highly demanding conditions, they have been engineered for greater durability, better performance or longer life.

- Remanufactured components: offering an economically viable solution, they are the best option when preventative replacements are required.

Whatever the choice, the renowned quality of Hitachi construction machinery is assured.

EX ultra-large excavators

ZW wheel loaders

*“We develop construction machinery that contributes to the creation of affluent and comfortable societies”*

Yuichi Tsujimoto, HCM President

## BUILDING A BETTER FUTURE

Established in 1910, Hitachi, Ltd. was built upon a founding philosophy of making a positive contribution to society through technology. This is still the inspiration behind the Hitachi group's reliable solutions that answer today's challenges and help to create a better world.

Hitachi, Ltd. is now one of the world's largest corporations, with a vast range of innovative products and services. These have been created to challenge convention, improve social infrastructure and contribute to a sustainable society.

Hitachi Construction Machinery Co., Ltd. (HCM) was founded in 1970 as a subsidiary of Hitachi, Ltd. and has become one of the world's largest construction equipment suppliers. A pioneer in producing hydraulic excavators, HCM also manufactures wheel loaders, rigid dump trucks, crawler cranes and special application machines at state-of-the-art facilities across the globe.

Incorporating advanced technology, Hitachi construction machinery has a reputation for the highest quality standards. Suitable for a wide range of industries, it is always

hard at work around the world – helping to create infrastructure for a safe and comfortable way of living, developing natural resources and supporting disaster relief efforts.

Hitachi Zaxis excavators are renowned for being reliable, durable and versatile – capable of delivering the highest levels of productivity under the most challenging of conditions. They are designed to provide owners with a reduced total cost of ownership, and operators with the ultimate level of comfort and safety.

Mini excavators

# SPECIFICATIONS

## ENGINE

Model .....	Isuzu AR-4HK1X
Type .....	4-cycle water-cooled, common rail direct injection
Aspiration .....	Variable geometry turbocharged, intercooled, cooled EGR
Aftertreatment .....	DOC and SCR system
No. of cylinders .....	4
Rated power	
ISO 14396 .....	128.4 kW at 2 000 min <sup>-1</sup>
ISO 9249, nett .....	122 kW at 2 000 min <sup>-1</sup>
SAE J1349, net .....	122 kW at 2 000 min <sup>-1</sup>
Maximum torque .....	670 Nm at 1 600 min <sup>-1</sup>
Piston displacement .....	5.193 L
Bore and stroke .....	115 mm x 125 mm
Batteries .....	2 x 12 V / 93 Ah

## HYDRAULIC SYSTEM

### Hydraulic Pumps

Main pumps .....	2 variable displacement axial piston pumps
Maximum oil flow .....	2 x 157 L/min
Pilot pump .....	1 gear pump
Maximum oil flow .....	30 L/min
Steering pump .....	1 gear pump
Maximum oil flow .....	28.6 L / min

### Hydraulic Motors

Travel .....	1 variable displacement axial piston motor
Swing .....	1 axial piston motor

### Relief Valve Settings

Implement circuit .....	34.3 MPa
Swing circuit .....	33.4 MPa
Travel circuit .....	34.8 MPa
Pilot circuit .....	3.9 MPa
Power boost .....	36.3 MPa

### Hydraulic Cylinders

	Quantity	Bore	Rod diameter
Boom	2	110 mm	80 mm
Arm	1	120 mm	90 mm
Bucket	1	105 mm	75 mm
Positioning *	1	170 mm	105 mm

\* : For 2-piece boom

## UPPERSTRUCTURE

### Revolving Frame

D-section frame for resistance to deformation.

### Swing Device

Axial piston motor with planetary reduction gear is bathed in oil. Swing circle is single-row. Swing parking brake is spring-set/hydraulic-released disc type.

Swing speed .....

12.2 min<sup>-1</sup>

Swing torque .....

42.8 kNm

### Operator's Cab

Independent spacious cab, 1 005 mm wide by 1 675 mm high, conforming to ISO\* Standards.

\* International Organization for Standardization

## UNDERCARRIAGE

Wheeled type undercarriage. The frame is of welded, stress-relieved structure.

Drive system: 2 speed power shift transmission and variable displacement axial piston type travel motor.

Travel speed (forward and reverse)

Creeper speed range .....

0 to 2.4 km / h

Low speed range .....

0 to 8.6 km / h

High speed range .....

0 to 35 km / h

Maximum traction force .....

102 kN

Gradeability .....

70% (35 degree)

Min. turning radius.....

6 650 mm

Axle:

All-wheel drive.

The front axle can be locked hydraulically in any position.

Oscillating front axle.....

± 7°

Brakes system:

Maintenance free wet-disc brakes on axle are standard.

Fully hydraulic service brake system

## SOUND LEVEL

Sound level in cab according to ISO 6396 .....

LpA 72 dB(A)

External sound level according to ISO 6395 and

EU Directive 2000/14/EC .....

LwA 100 dB(A)

## SERVICE REFILL CAPACITIES

Fuel tank .....	290.0 L
Engine coolant .....	28.0 L
Engine oil .....	23.0 L
Swing device .....	6.2 L
Transmission .....	2.5 L
Front differential gear .....	9.5 L
Rear differential gear .....	14.0 L
Hub reduction gear	
Front axle .....	2 x 2.5 L
Rear axle .....	2 x 2.5 L
Hydraulic system .....	180.0 L
Hydraulic tank .....	100.0 L
DEF/AdBlue® tank .....	26.0 L

Cold fuel resistance valve	●	CRES V (Center pillar reinforced structure) cab	●
DEF/AdBlue® tank inlet strainer and extension filler	●	Drink holder with hot & cool function	●
DEF/AdBlue® tank with ISO magnet adapter	●	Electric double horn	●
Dry-type air filter with evacuator valve (with air filter restriction indicator)	●	Engine shut-off switch	●
Dust-proof indoor net	●	Equipped with reinforced, tinted (green color) glass windows	●
ECO/PWR mode control	●	Evacuation hammer	●
Electrical fuel feed pump	●	Floor mat	●
Engine oil drain coupler	●	Footrest	●
Expansion tank	●	Front window washer	●
Fan guard	●	Hot & cool box	●
Fuel cooler	●	Intermittent windshield wipers	●
Fuel pre-filter with water separator	●	Key cylinder light	●
Isolation-mounted engine	●	Laminated round glass window	○
Maintenance free pre-cleaner	○	LED room light with door courtesy	●
Radiator, oil cooler and intercooler	●	OPG top guard Level II (ISO10262) compliant cab	○
<b>HYDRAULIC SYSTEM</b>		Pilot control shut-off lever	●
Auto power lift	●	Power outlet 12 V	○
Control valve with main relief valve	●	Rain guard	●
Extra port for control valve	●	Rear tray	●
Full-flow filter	●	Retractable seat belt	●
High mesh full flow filter with restriction indicator	○	ROPS (ISO12117-2) compliant cab	●
Hose rupture valve for arm	●	Rubber radio antenna	●
Hose rupture valve for boom	●	Seat : air suspension seat with heater	●
Pilot filter	●	Seat adjustment part : backrest, armrest, height and angle, slide forward / back	●
Power boost	●	Short wrist control levers	●
Shockless valve in pilot circuit	●	Sun visor	●
Steering filter	●	Transparent roof with slide curtain	●
Suction filter	●	Windows on front, upper, lower and left side can be opened	●
Swing dampener valve	●	2 speakers	●
Variable reliefvalve for breaker & crusher	●	4 fluid-filled elastic mounts	●
Work mode selector	●		
		<b>LIGHTS</b>	<b>FRONT ATTACHMENTS</b>
		Additional boom light with cover	○
		Additional cab roof front lights	○
		Additional cab roof rear lights	○
		Brake lamps	●
		Clearance lamps	●
		Hazard lamps	●
		Licence lamp	○
		Rotating lamp	○
		Turn signal lamps	●
		Working lights	●
		2 head lights	●
		<b>UPPER STRUCTURE</b>	<b>ATTACHMENTS</b>
		Batteries 2 x 93 Ah	●
		Battery disconnect switch	●
		Body top handrail	●
		Counterweight 3 400 kg	●
		Counterweight 3 800 kg	○
		Electric fuel refilling pump with auto stop and filter	●
		Fuel level float	●
		Handrail (cab top)	●
		Handrail (platform)	●
		Hydraulic oil level gauge	●
		Rear view camera	●
		Rear view mirror (right & left side)	●
		Side view camera	○
		Skid-resistant plates and handrails	●
		Swing parking brake	●
		Undercover	●
		<b>MISCELLANEOUS</b>	
		Global e-Service	●
		Lockable fuel refilling cap	●
		Lockable machine covers	●
		Onboard information controller	●
		Standard tool kit	●
		Travel direction mark on chassis frame	●

Standard and optional equipment may vary by country, so please consult your Hitachi dealer for details.

Prior to operating this machine, including satellite communication system, in a country other than a country of its intended use, it may be necessary to make modifications to it so that it complies with the local regulatory standards (including safety standards) and legal requirements of that particular country. Please do not export or operate this machine outside the country of its intended use until such compliance has been confirmed. Please contact your Hitachi dealer in case of questions about compliance.

These specifications are subject to change without notice.  
Illustrations and photos show the standard models, and may or may not include optional equipment, accessories, and all standard equipment with some differences in color and features. Before use, read and understand the Operator's Manual for proper operation.
